

How does subscription work?

We consider the Dub Dealers Society as a community first and foremost and as such we will not automate subscription from our end. What we ask of our members is that they either automate from their end, or manually make payments within their monthly renewal window (provided when you sign up).

You will have two annual passes that allow you to pause your membership without leaving the service and deal with those important things that life throws at us from time to time.

If you wish to leave the service, please just let us know so that we can enroll some new dub dealers that are waiting to join.

One off 25 GBP sign up fee – you receive 1 vinyl records, slip mat, exclusive ltd ed. tee +more!

Which record labels are you partnered with?

Partial Records, Indica Dubs, Steppas Records, Dub-O-Matic, Svaha Sound Records, Conscious Sound, Red Robin, Blaka Mix, Akashic Records, Emperorfari, Dreadwise Music, Log On!! + more to be announced.

What can I expect each month?

We will deliver 1 new vinyl release from our partners every month that you subscribe to, this will be accompanied with exclusive discounts and offers from additional and relevant companies and the occasional piece of merchandise. When a particularly special piece of merchandise becomes available, we will deliver this to you in place of your usual vinyl (maximum of two a year).

You will also receive digital exclusives and additional discounts with some of our partners.

We will send you/or give you exclusive access to dubplates from top artists.

What makes it a society?

We aim to further unite the reggae vinyl community through this service.

We will only grow the society in 10's. This means that we will set strict intake periods where 10 new members will join the society and these new members will be based on your recommendations. This helps us to provide the highest quality of service to you and our members and not be weighed down with chasing subscriptions. So make sure that you let people know about us and share your deliveries on your social etc. to organically build the society from within.
